

NATURE TOURS

Naturally Gunung Raya

The Gunung Raya nature trail is the first step toward a lifetime of interest in the natural world. Visible from pretty much anywhere on Langkawi, Gunung Raya is located at the heart of the island. You will be taken deep into this fascinating wilderness by beginning at the rainforest park in Lubuk Semilang. The ascent through the rainforest is a mild climb. The indigenous guides with their encyclopaedic knowledge of the terrain will point out and explain the interesting facts and features of the forest. At the halfway point, your guests will stop for refreshments next to a cool mountain river.

The nature trail ends at the *Kampung Buku Malaysia* (Langkawi Book Village). This is the first and only book village in South East Asia and is part of the International Book Villages and Book Towns Movement. Situated amidst a lush green forest at the foot of Gunung Raya, the wooden *kampung*-style houses provide a tranquil setting to indulge in a spot of reading.
